We would like to make your decision easy by providing fast facts about our school below.

Our school will help improve the following attributes:

We offer the below classes:

- Black Belt Membership-this is designed for individuals who would like to achieve their black and black at an accelerated pace

Studying under the Kang Duk Won system will allow you to explore the limits of strength, endurance and spirit. In doing so you will achieve many goals in life. You will also receive an education that teaches skills on how to resolve conflict humanely and intelligently. This is achieved by combining physical self-defense with mental self-defense skills. You will learn and practice these skills along with many others so that you will be able to employ the skills in everyday life experiences.

We look forward to your upcoming training at our martial arts school.

Thank You,
